

## Investment Manager – Energy Access in Haiti

---

*Bamboo Capital Partners is an impact investment firm making investments that matter. Experts in energy access, financial services and agribusinesses, Bamboo has offices in Luxembourg, Geneva, Bogota, Nairobi and Singapore. Since Bamboo launched in 2007 it has proved that private capital can be profitably deployed as a tool for effective change. To date Bamboo has raised close to US\$400 million from private and public investors and invested in a portfolio of companies in over 30 countries.*

*In 2018, Bamboo has been selected as the international fund manager for the Off-Grid Electricity Fund (OGEF) in Haiti. OGEF is a US\$17 million energy access fund set up by the Government of Haiti, with funding and support from The World Bank, and co-managed by Bamboo and Fonds de Développement Industriel (FDI), a Haitian Development Finance Institution. OGEF will invest debt and equity in companies that provide renewable energy access solutions to people in Haiti, ranging from mini grids to pay-as-you-go solar products.*

*More than 70% of Haiti's population still lacks access to electricity. OGEF was launched to help solving this problem by investing in commercially viable companies that can provide Haitian households with clean, reliable and decentralized sources of energy and leapfrog the need for costly infrastructure in the process. OGEF's objective is to help electrify 200,000 households and SMEs by 2028.*
